## **PERSONAL PROFILE**

I am a 7th semester informatics engineering student at the Yogyakarta Technological University. I really like all sciences related to technology, one of which is data development and project development such as machine learning, android, and software engineering. My determination and dedication that I highlight is participating in various programs to develop my skills and take the intelligent systems concentration in college. Now I want to further develop and use my skills in industry, especially regarding data, machine learning, and android development.
